Thank you, Governor Hogan, for your continued support of Adult Education in your FY2019 budget.

Our economy is weakened with **500,000 Maryland Adults locked out of jobs and job training opportunities** because they lack a high school diploma, English language skills, or basic academic skills. With current funding, Maryland's adult education programs can only serve about 10% of adults who need classes.

Please lead Maryland by **increasing FY2019 funding** for Adult Education. Increased resources will help more Marylanders earn their high school diplomas and strengthen Maryland's WIOA efforts!
