

## DRAFT – September 9, 2016 BENCHMARKS OF SUCCESS for MARYLAND'S WORKFORCE SYSTEM

As Maryland seeks to strengthen and enhance its workforce system through implementation of the <u>Workforce Innovation and Opportunity</u> <u>Act (WIOA) State Plan</u>, success requires a commitment to innovation, collaboration, and a true systems approach among the State's many workforce partners. In order to guide the WIOA Partners in this work, this document sets forth a clear future vision of the systems' goals, and measureable achievements that help define success and lay the core foundation of this new system. In keeping with Maryland's commitment to place "people before performance," these goals and corresponding benchmarks are focused around a central vision of increasing the earning capacity of Marylanders by maximizing access to employment, skills and credentialing, life management skills, and supportive services.

These goals and benchmarks present a framework for service delivery that will lead to improved outcomes for Maryland jobseekers who need the system's assistance the most. The 5 strategic goals and 12 benchmarks outlined in this document intentionally set a high bar and are meant to be used as a leadership tool, guiding strategic conversations and defining a set of achievements for the workforce system to commit to and strive toward in our collective work to improve the lives of Marylanders.

This document will be presented for public comment to ensure feedback from all WIOA Stakeholders. At the completion of this comment period, the WIOA Performance Workgroup, comprised of seasoned performance and data management professionals, will be charged with the evaluation, refinement, benchmark definitions, goals and timelines.
